Introduction

This catalogue appears in each of the eleven official languages of the European Union.

It comprises the monographs published by the Institutions of the EU during the period 1985-1996, as well as current periodicals. ⁽¹⁾

Please note: This catalogue replaces and updates all earlier catalogues. The period covered by the catalogue, previously shown on the cover, has been replaced by the catalogue's year of issue.

Presentation of the catalogue

Each publication appears in only one language, if the English version does not exist, another language version will be included, in the following order of preference:

French	Portuguese	Finnish
German	Dutch	Greek
Italian	Danish	others
Spanish	Swedish	

Where other language versions also exist, cross-references are provided by means of a code, in the following form:

IT:88-12 which signifies the following:

IT the Italian version is described in the Italian catalogue

88 in the year 1988

12 entry number 12 in the classified index

The catalogue is divided into five parts, as follows:

1. **The classified index:** Provides a subject classification of the titles, according to the list on page 8. Under each heading, priced publications and publications that are free of charge are separated.

For each monograph or collection, the full bibliographic entry appears only once and is preceded by a sequential entry number. If the publication appears under another heading, only the title and the principal sequence number are indicated.

In the case of publications in numerous volumes (collection), the first entry is the collection, followed by each volume. If one of the volumes does not exist in the language of the corresponding collection, another language version will appear, in the order of preference and within square brackets [].

For the periodicals, only the title and entry number of the periodical index appear.

2. **The periodical index:** Comprises the bibliographic entry of the periodical, preceded by a sequential entry number.

3. **The alphabetical index:** Comprises the contents of each publication, with the exception of EUR documents, according to keywords (descriptors) contained in the Eurovoc thesaurus. ⁽²⁾

4. **The title index.**

5. **The series index:** Alphabetical list of series with corresponding monographs.

The alphabetical index, the title and the series indexes indicate as a reference the entry number of the classified index.

Abbreviations and conventional signs

The text languages of publications are indicated by the following abbreviations:

ES Spanish	EN English	NL Dutch
DA Danish	FR French	PT Portuguese
DE German	GA Irish	FI Finnish
GR Greek	IT Italian	SV Swedish

A sequence of such symbols separated by diagonal strokes denotes a publication in which different language versions of the same text appear under one cover.

The prices given are without VAT and are expressed in ecus (ECU). Approximate value: ECU 1 = GBP 0.75; IEP 0.75; USD 1.26; BEF 39,91.

⁽¹⁾ The COM documents, EP reports and ESC opinions are listed in other catalogues, which are also edited in each of the eleven official languages and appear monthly and annually.

⁽²⁾ Eurovoc Thesaurus: Indexation tool, has been produced by the European Parliament and the Publications Office. Available on request from: Publications Office, OP4-4, will send a detailed brochure of the *Eurovoc Thesaurus*.

Réchauffage en répartiteur de coulée continue par induction électromagnétique: Production de l'acier	2075	Welding of sections using a self-shielded flux-cored process: Properties and service performance	2121
Reducing sensitivity of structural steels to hydrogen cracking: Properties and service performance	2076	Transport research	
Reduction of iron ores: Progressive reduction of burden in the blast furnace	2077	Air transport: Study on potential benefit to airport/ATM congestion through special operational procedures for rotorcraft	1462
Research into steel-intensive re-cladding of existing concrete or masonry buildings: Properties and service performance	2079	APAS: Air transport: Assessment of the impact of MLS implementation on Cat. II/III runways' capacity in low visibility conditions	1465
Resistenza al clivaggio degli acciai altoresistenziali per tubi (X80) a struttura polifasica di ferrite/ferrite aciculare: Proprietà e prestazioni	2081	APAS: Air transport: FRAIS: Functional requirements for an airport ground movement control and management interconnection system	737
Role of elevated temperature strength in cold forging: Properties and service performance	2083	APAS: Air transport: Muftis: Model use and fast-time stimulation	738
Seismic re-evaluation of operating nuclear power plants in European countries: Comparative study on national practices	2087	APAS: Air transport: Requirements for a functional organization of the control tower operations and tools	1466
Semi-rigid action in steel framed structures: Properties and service performance	2088	APAS: Air transport: Wake vortex reporting scheme and meteorological data collection system	2128
Sistema di automatizzazione e controllo processo dei treni Sendzimir: Trasformazioni (laminati)	2089	APAS: Maritime transport: Impact of changing logistics on maritime transport	729
Stahlerzeugung: Untersuchungen zur Eignung grobkörniger Hochofen- und Stahlwerksschlacken als Düngemittel für die Land- und Forstwirtschaft	2090	APAS: Maritime transport: Inland waterways transport systems	730
State of the art and developments in near-net-shape casting of flat steel products	2091	APAS: Maritime transport: RIACT: Relevance of information and communications technologies for shipping	731
Steel columns embedded in concrete foundations: Properties and service performance	2092	APAS: Maritime transport: Short sea shipping	732
Studio della cinetica delle reazioni del Mn e del fosforo nell'affinazione di ghisa pretrattata nei convertitori con soffiaggio misto e con l'impiego di minerale di Mn	2093	APAS: Maritime transport: Structure and organization of maritime transport	733
Studio della smaltibilità di acciai da profondo stampaggio laminati a caldo: Proprietà e prestazioni	2094	Apas: Maritime transport: THAMES: Technology and human aspects of maritime efficiency and safety	1467
Studio progettuale e verifica sperimentale per la riqualificazione dei guardrails in acciaio per barriere di sicurezza spartitraffico ad elevata affidabilità anche contro gravose severità di impatto: Proprietà e prestazioni	2095	APAS: Maritime Transport: Vessel traffic management and information systems VTMS	1468
Studium der Möglichkeiten und Probleme der ICP-MS-Analysestechnik in der Eisen- und Stahlindustrie: Meßwesen und Analysen	2096	APAS: Road transport: Assessment of road transport models and systems architectures	1469
Study and development of multi-nozzle oxygen lances for use in vacuum conditions in the VOD process: Steelmaking	2097	APAS: Road transport: Evaluation	1470
Study of the phenomenon of cracking during stress relief heat treatments in welded joints of quenched and tempered high-strength steels: Properties and service performance	2098	APAS: Road transport: Harmonization of European accident investigation systems	1471
Surface inspection of hot bars during rolling: Measurement and analysis	2099	APAS: Road transport: Investment, organization and finance scenarios	1472
Sviluppo di attrezzature siderurgiche compound a prestazioni migliorate fabbricate in arco plasma trasferito	2100	APAS: Road transport: Network architecture	1473
Thermodynamische und kinetische Grundlagen der Entstehung und Verarbeitung von Rostfreistauben: Stahlerzeugung	2105	APAS: Strategic transport: Cost-benefit and multi-criteria analysis for inland waterways infrastructure	734
Toughness, tensile properties and fracture behaviour of structures in modern steels	2106	APAS: Strategic transport: Cost-benefit and multi-criteria analysis for nodal centres for goods	940
